WS-200W

Product Image

Key Features

- Smart Design for easy to installation.
- High and low temperature resistance for long time.

WS-200W

Technical Parameters

Model No.	WS-200	Light Efficiency	94.25lm/W
Power	200W	Shading Angle	30°
Voltage	220V	Luminous surface	90mm*110mm
Working life	≥50000h	Lamp efficiency	100%
Working time	20 minutes of normal temperature and 10 minutes of high temperature	Rated luminous flux	20655lm
Dimension	170*50*120(L*W*H)mm	Weight	2.5kg
Working temperature	-45°C to +95°C	Lamp protection grade	IP65
10,000 frames of high-speed shooting without flicker

WS-200W

Application Scenario

- Auxiliary application of integrated airbag ignition test system.
- High-speed capture of airbags in the box.
- High-end medical and testing services application scenarios.
